WP2 Dissemination Wiki

The main goal of the NA Dissemination is fostering the interaction between science and technology, and reinforce the contact between European radio astronomy and industry. The task is focusing on supporting organisation of scientific and technical events. Most of those events will focus on the RadioNet community, however a cross-disciplinary events will also play an important role in order to attract the researchers and industrial engineers and assure the transfer of knowledge (WP2 Description).

This activity is divided into two tasks, supporting scientific and technical events respectively:

- WP2.1 Science Dissemination- *Leader M. Lindqvist*
- WP2.2 Technical Dissemination - *Leader R. Keller*

The overall leader of WP2 is Michael Lindqvist.

Calls for funding

Both tasks have separated **calls for financial support for**:

- Scientific events - more about the call here.
- Technical events - more about the call here.
