

WP4.1 EVN TOG & GMVA Technical meetings - Wiki

This task focuses on two technical groups:

- The Technical & Operations Group (TOG) of EVN - platform for innovations and standardisation within EVN and has been responsible for the maintenance of the technical and operational infrastructure of EVN for the last 30 years.
- The GMVA Technical Group (GTG) will be officially constituted to provide comparable services to the GMVA.

As there is considerable overlap between both groups, it is intended to organize TOG and GTG technical meetings in conjunction with each other. These meetings allow staff from the stations to agree on common developments and share knowledge from which both networks will benefit. The TOG & GTG technical meetings will provide a crucial element of training and development, maintaining and enhancing the quality of the data received by EVN and GMVA users. The financial support provided in this project will boost these new combined meetings with the aim to make them an established part of the infrastructure at the end of the project.

WP4.1 Meetings

No	Date	Place/Country	Title	Minutes	Report
1	22-23.05.2017	Ventspils/LV	EVN TOG & GTG Meeting 1	TOG Minutes	Report
2	19-20.03.2018	Shanghai/CHN	EVN TOG Meeting 2	TOG minutes	Report
3	04-05.10.2018	Granada/ESP	EVN TOG & GTG Meeting 3	TOG Minutes GTG Minutes	Report
4	26.06.2019	Jodrell Bank Observatory/UK	EVN TOG Meeting 4	TOG Minutes	Report
5	05-06.05.2020	Max-Planck-Institute for Radio Astronomy in Bonn, Germany	EVN TOG & GTG Meeting 5
