

RadioNet support for scientific events

EVALUATION SUMMARY

CALL 01.01.19

	Title of the event	Place	date	Organizer	Eligibility
1	Eating, 2019	Bologna / IT	15-17.4.2019	INAF-ORA	Date of the event is in conflict with the call text. 20% of the total cost requested for ca. 5 grants x400€. Eligible for RN support, when the selection of participants will follow the RadioNet rules for support.
2	EPTA Autumn Meeting	Marcoux / FR	7-9.10.2019	OBSPARIS	38% of the total cost (main sponsor), logistic cost & accommodation of students and postdocs. Eligible, but the logistic cost have to follow the rules for eligibility, the supported participants must have been selected upon the RadioNet rules. In case the RadioNet is the main sponsor the prime visibility must be assured.
3	Views on the Interstellar Medium in Galaxies in the Alma Era	Bologna/IT	2-6.9.2019	INAF-OAS, DIFA (non RN)	8% of the total cost, invited speaker Hashimoto and max 5 young participants. RN can only support participants, which have been selected upon the RadioNet rules!
4	YERAC	Dublin/IE	26-29.8.2019	DIAS/TCD	87% of the total cost (main sponsor), additional 3 sponsors, 2.5 days meeting. Usually total YERAC cost around 10.000€. Listed support for logistic and accomodation are eligible, but not the welcome reception. Also the invited speakers in case supported by RadioNet must be selected upon RN rules for support. As the RN is the main sponsor at present its prominent visibilty has to be assured.
5	ALMA2019	Cagliari /IT	14-18.10.2019	INAF-ORA	3% of the total cost requested; for travel, fee and child care of RN -eligible participants. Eligible, but the selection of the person for support has to follow the RN rules.
6	LOFAR Science	Leiden/N	20-23.5.2019	ASTRON+ILT	11% of the total cost for lunch & coffee breaks. Eligible. 2nd major sponsor, thus the sponsoring role of RN must be adequate visible.
7	SKA-VLBI Key Science Projects and Operations Workshop	JodrellBank/UK	14-17.10.2019	JIVE, SKAO (non-RN)	24% of the total cost requested from RN. 6000€ for the invited speakers talking about RN science. Eligible, but the event looks like a Jumping-JIVE event – duplication should be avoided.
8	LOFAR MSKP	Bochum/DE	23-27.9.2019	Ruhr Uni (non RN)	50% of the total cost requested, if supported at the requested level the RadioNet is the main sponsor and has to be visible at this prominent role. Eligible, but the local cost (catering, public transportation) cannot be covered from RN. The RN suport can be used only for speakers selected upon the RN rules!
	TA user Annie Zavagno at Zoomign in on Star Formation	Nafplio/GR	10-14.6.2019		Full eligible: APEX TA user, invited speaker, current results

1	ADASS	Groningen/NL	6-10.10.2019	ASTRON	not eligible. It is a technical event suited for WP2.2 – welcome to apply for the WP2.2 call in June
2	Understanding the dynamics of the earliest phases of the star formation	Haystack/US	May 2019	INAF-IAPS (non RN)	not eligible. It is a meeting of collaboration partners. The PI/co-authors of the TA project are welcome to use the Wp2.1 call for TA users in the future.
3	Radiotelescope project Tunisia 1+2	Gafsa/TN	04.05.19	STU (non RN)	not eligible. Preparatory meeting for new telescopes are out of the scope.
4	Meeting of the LEGO Collaboration	Bonn/DE	August 2019, or later	Hystack (non RN)	not eligible, as it is a TA project collaboration meeting. The PI/co-authors of the TA project are welcome to use the Wp2.1 call for TA users in the future.
